Seminar on ICT Based Teaching Methodology

Date: 28.03.2022

Time: 3:00 pm onwards

Venue: Room No. 14. Dr. A.P.J. Abdul Kalam Government College

</div>

ICT enabled teaching is one of the most important directions adopted by modern day instructors to augment the traditional teaching methods. The college is equipped with two ICT enabled lecture halls funded by the Department of Higher Education, Govt. of West Bengal. IT was felt that an appraisal of the resource and a training on its usage will be beneficial for optimal use of this available resource. Based on this idea, IQAC organized a seminar and lecture demonstration on ICT enabled teaching on 23.08.2022 from 3:00 at Room No. 14, one of the ICT enabled lecture rooms of the College.

Activity

The program began through an introductory speech on the necessity of ICT in modern day teaching learning process by Dr. Mala Neogy, Coordinator of IQAC in the college. This was followed by the seminar on the topic comprising two lectures on the topic by Dr. Suman Nath and Dr. Pranabes Bhattacharya, Assistant Professors from the Departments of Anthropology and Chemistry respectively on the proposed topic of ICT teaching methods. The lecture included introduction to the usage of power point presentations, slide preparations, audio and video inclusion, image optimization and related topics.

Result

The usage of ICT enabled teaching increased after the workshop and teachers were found to eagerly participate in this method and use the facility at an optimal level.
