The Future Fuel: Celebration of Biofuel Day

The Department of Botany, Dr. A.P.J. Abdul Kalam Government College, organized an Extempore Competition on August 9, 2023, to commemorate World Biofuel Day. The event, aptly titled "Future Fuel," aimed to spark insightful discussions and creative thinking on the potential of biofuels in addressing global energy challenges.

A total of 22 enthusiastic students participated in the competition, showcasing their knowledge and passion for sustainable energy solutions. The participants were given a diverse range of topics related to biofuel technology, environmental impact, and policy implications. They were judged on their fluency, clarity of thought, and ability to articulate complex ideas in a concise and engaging manner.

After a rigorous evaluation process, Mainak Majumder emerged as the first-place winner. His extempore speech was praised for its depth of knowledge, logical argumentation, and captivating delivery. Deep Bhattacharya secured the second position, impressing the judges with his eloquent presentation and insightful analysis. Mahabir claimed the third position, demonstrating a strong grasp of the subject matter and a persuasive speaking style.

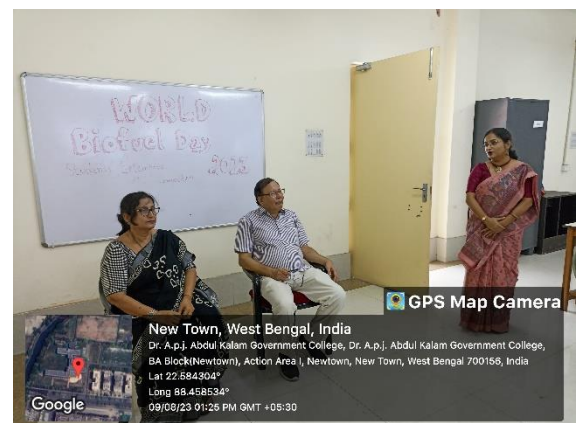

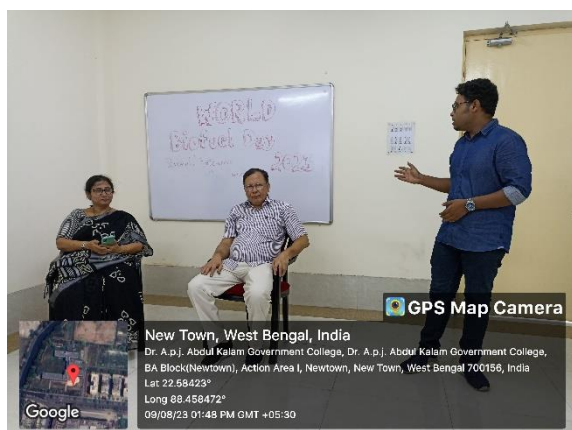

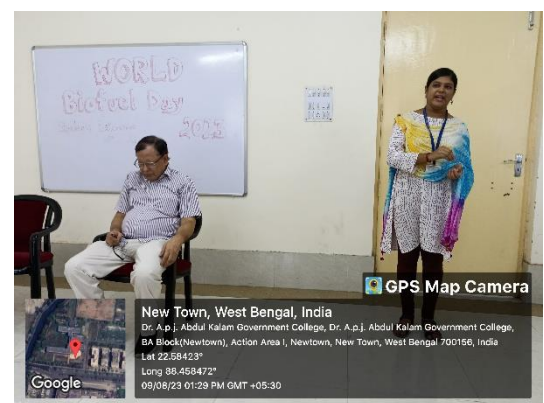

Afreen Naaz was awarded a special prize for her unique perspective and creative approach to the topic. Her speech highlighted the socio-economic benefits of biofuel production, particularly for rural communities.

The event was graced by the presence of Dr. Debasish Banerjee, the esteemed Principal of the college, who served as the guest of honor. His insightful remarks emphasized the importance of promoting sustainable energy solutions and encouraged students to contribute to a greener future.

The "Future Fuel" competition was a resounding success, inspiring the participants to explore the exciting possibilities of biofuels. It also underscored the importance of promoting sustainable energy solutions to address the pressing environmental and energy challenges of our time.
